8" Digital Photo Frame

Cutting-Edge Display Technology & Ultra-Slim Frame Design

VFM820-50

The ViewSonic® VFM820-50 8" digital photo frame is the easiest way to create a gallery of your favorite photos. Showcase your memories in style with cutting-edge display technology and an ultra slim frame design. Just insert any supported memory card to start your personalized photo slideshow, complete with multimedia features for accompanying music*. The high-resolution display presents your pictures in true-to-life crystal clarity with energy-saving LED backlight. The light sensor and auto on/off features save even more energy for a genuinely green technology. The intuitive user interface and included calendar and clock functions make this a practical and stylish addition to any environment. Showing off your favorite photos has never been so easy or so much fun.

Plug & Play Multimedia Slideshows

You'll be up and running right out of the box. Just plug in any supported memory card to enjoy an instant photo slideshow. The VFM820-50 supports all popular memory card formats (SD/SDHC/MMC) and features an intuitive, easy-to-use menu system. You'll be up and running with your photo slideshow in just moments. Included multimedia features support audio playback so you can enjoy background music along with your photos.

Make the Most Beautiful Memories

With a stunning 800x600 high-resolution display, the VFM820-50 presents your cherished photos with high contrast, vivid brightness and brilliant colors. Engineered to a perfect 4:3 aspect ratio optimized for showcasing full screen photos, the VFM820-50 makes your memories more beautiful than ever before.

Style for Any Environment

Enhance any room in high-tech, contemporary style with this uniquely designed digital photo frame. The fashionable frame blends perfectly with any décor at home or at the office, and the super slim space saving design makes it a perfect fit for any place. A sleek finish provides a unique look to complement your precious photos. The included calendar and clock features make this a practical, as well as beautiful, addition to your home or office.

Eco-Friendly Photo Frame

The LED backlit display is an eco-friendly and energy saving alternative to traditional display technologies, and delivers superior image quality. The VFM820-50 includes light sensor and auto on/off features for power saving. Save energy and save on your electric bill with this green technology.
